

## NCTRC Exam Reference List

The following list includes the major therapeutic recreation literature that was available as reference material in the development of the exam items for the national exam for CTRS. NCTRC does not wish to give the impression that these resources are definitive sources for test item development. The resources were used as supportive documentation and reference materials to commonly held practice knowledge. Therefore, please note that NCTRC does not endorse any of these documents. Nor are these references comprehensive. Rather, they are provided as illustrative materials actually referenced in the exam development process and NCTRC recognizes other worthwhile references exist.

American Psychiatric Association (1994). *Diagnostic & Statistical Manual of Mental Disorders* (4<sup>th</sup> ed.). Washington, DC: American Psychiatric Association.

American Therapeutic Recreation Association. (2000). *Standards for the Practice of Therapeutic Recreation & Self-Assessment Guide*. Alexandria, VA: ATRA.
